

SUMMARY OF GRADUATE INTENTIONS: 2001-02

Overview: Wake County Public Schools graduated 5,406 seniors in 2001-02, and 89% intended to continue their education after graduation.

Near the end of each school year, high school seniors complete a Graduating Seniors Intention Survey that serves multiple purposes: it reveals the immediate intentions of each graduating senior; it specifies a select college to receive final transcripts; and it provides a forwarding address for possible follow-up surveys. Using these surveys, guidance counselors and principals complete a composite report of the postgraduate intentions of all students receiving diplomas at any time during the current school year. The required report summarizes intentions by ethnicity and gender. The Evaluation and Research Department (E&R) then compiles the individual school reports and transmits them to the North Carolina Department of Public Instruction. This report is a brief summary of the information for graduates in the 2001-02 school year.

The survey asks students to indicate whether they plan to:

- enroll in four-year institutions (broken down by public or private) and whether or not their intended college is in or out of North Carolina;
- enroll in two-year community, technical, or junior colleges (broken down by public or private) and whether or not their intended college is in or out of North Carolina;
- enroll in trade, business, or nursing schools;
- enlist in military service;
- seek employment;
- do something other than the items listed above.

For summary purposes, all four-year institutions are combined, and all two-year institutions are combined in this report. Attachments contain a summary of Wake County Public School System (WCPSS) graduate intentions for 2001-02, detailed tables showing all postgraduate categories for all schools, Graduate Intentions Over a Four-Year Period by School, and a sample of the Graduating Seniors Intention Survey

A total of 5,406 students graduated from 15 high schools and one alternative school during the 2001-02 school year. This constitutes a 4.92% increase from last year.

WAKE COUNTY
PUBLIC SCHOOL SYSTEM

Of the total number of graduating students in WCPSS, 49% were males and 51% were females. The following figure shows the distribution of males and females in the prescribed postgraduate categories. More females than males planned to attend four-year colleges, and more females than males intended to continue with some form of schooling. About 6% of females and 11% of males intended to enter the military or get a full-time job. Results by gender are nearly the same as for 2000-01 graduates.

Figure 1: Graduate Intentions by Gender in 2001-02

	Males		Females		Totals	
	Number	Percent	Number	Percent	Number	Percent
Attend 4-year college	1523	57.9%	1878	67.7%	3401	62.9%

The next table illustrates the breakdown by subgroups designated in federal No Child Left Behind (NCLB) legislation. By ethnicity, the group with the highest percentage of students planning to attend a four-year college was Asian at 78.2%; Hispanic/Latino graduates had the lowest percentage at 44.1%. American Indian and Black graduates had the highest percentage of students planning to get a full-time job (10%) while Asian graduates had the lowest percentage at 1.3%.

Note: The numbers for Free or Reduced-price Lunch (FRL) and Limited English Proficiency (LEP) categories were taken from individual Graduating Seniors Intention Survey forms, not from reports submitted by schools.

Figure 3 compares WCPSS graduating students to all graduating students in North Carolina for the last two years for which data is available. WCPSS had a *higher* percentage of both White and Black students planning to attend four-year institutions. While 66% of White students in WCPSS planned to attend four-year colleges in 2001-02, only 44% of all North Carolina White students had those aspirations, a 22-point difference. About 53% of Black graduates in WCPSS planned to attend four-year colleges, compared to 46% of all North Carolina Black graduates.

Figure 3: Comparison of Graduate Intentions for WCPSS and North Carolina (Percent of Graduates)

* North Carolina Statistical Profiles group Asian, Hispanic/Latino, and Multi-racial graduates together as "Other."

Note: Percentages do not add to 100 because this figure does not show other intentions. See Attachment 1 or Figure 2 for more detail.

Figure 4 shows a breakdown of graduating seniors by ethnicity for each WCPSS high school. The 2001-02 graduating class size of the comprehensive high schools ranged from 180 students at Wakefield (first year of graduating seniors) to 496 students at Enloe. The average graduating class from a WCPSS high school in 2001-02 was 357 students. (Note: Longview and Phillips are alternative schools with specialized programs and do not offer a comprehensive curriculum.)

A closer look is given to the graduate intentions of seniors by school in Figure 5. The percentage of graduating students at a comprehensive high school planning to attend four-year colleges ranged from 39% to 78%. The percentage of graduating students planning to further their educational pursuits through four-year colleges, two-year colleges, or trade/business schools ranged from 78% to 96%.

The school with the largest senior class – Enloe—with 496 graduating students—also had the highest percentage of students (78%) planning to attend four-year institutions.

Leesville Road had the highest percentage of seniors (96% - up four points from last year) planning to continue their education, either through four-year colleges, two-year colleges, or trade/business schools. Other schools with more than 90% of graduates planning to continue their education include Athens Drive, Apex, and Enloe.

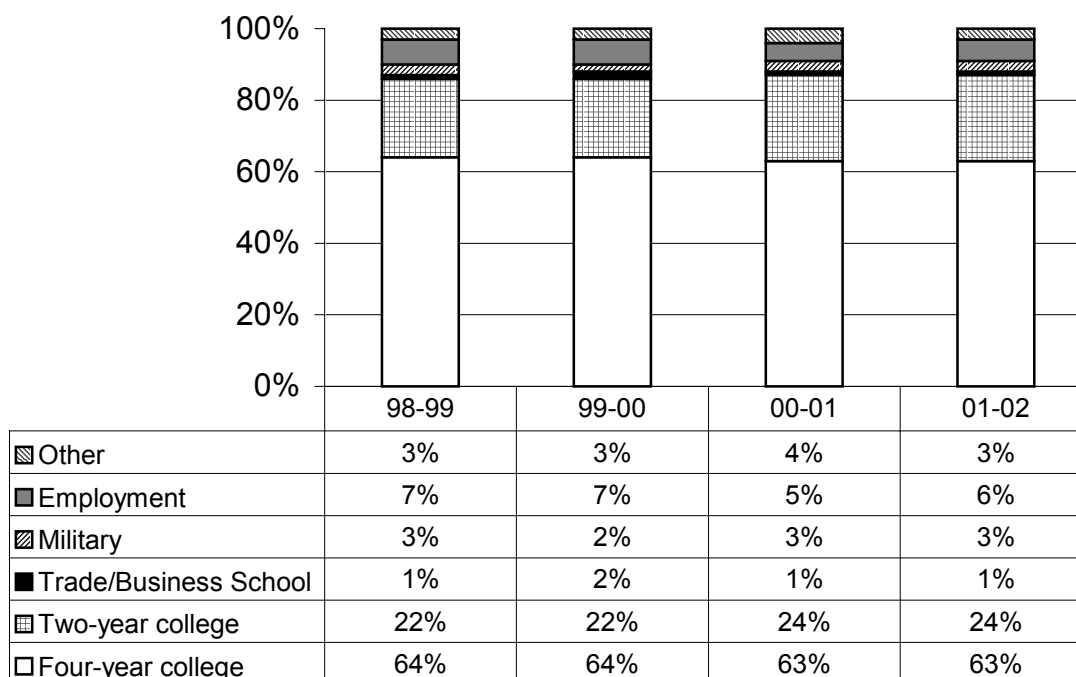

Fuquay-Varina had the highest percentage of seniors (6%) planning to enter the military. East Wake had the highest percentage of seniors (10%) planning to seek employment. Schools that had the highest percentage of students with intentions other than college or trade school were Garner (22%), East Wake (19%), Fuquay-Varina (18%), and Cary (14%).

**Figure 5: Graduate Intentions by School in 2001-02

Total Students	3401	1312	86	140	311	156	5406

Figure 6 shows that there has been little change in graduate intentions over time. There has been a slight gradual decrease in students planning to attend four-year colleges (64% in 1999-2000, 63% in 2000-01, and 62% in 2001-02), and a slight increase in students planning to attend two-year colleges (22% in 1999-2000, 24% in 2000-01, and 25% in 2001-02).

**Figure 6: Distribution of Graduate Intentions Over Time
(Percent of Students)**

While the districtwide percentage of graduates planning to attend four-year colleges has remained relatively stable during the past four years, five schools show larger changes. Garner has decreased fifteen percentage points (from 54% down to 39%), Cary has decreased eleven percentage points (from 65% down to 54%), and East Wake has dropped four points (from 49% to 45%). Leesville Road has increased five points (from 71% to 76%) and Broughton has increased four points (from 73% to 77%). Attachment 3 provides more detailed information on high school graduate intentions by school over a four-year period.

Districtwide percentages of graduates planning to seek employment have also remained relatively stable: 7% in 1998-99 and 1999-2000 decreasing to 5% in 2000-01 and 2001-02. Changes in the percentages of graduates planning to seek employment are more significant for three high schools. Southeast Raleigh dropped eleven points (from 15% down to a current 4%) and Athens Drive dropped eight points (from 10% down to 2%). However the percentages increased eight percentage points for Garner, from 7% in 1998-99 up to 15% in 2001-02.

Graduating Seniors Intention Survey

Attachment 4

Please verify the information at the top of this page. If it is wrong, write in the correct address or telephone number below in the box labeled, "Address Correction." Also, write in the address and telephone number of someone else who will know how to forward important mail to you next year in the box labeled, "Additional Address."

All high schools are required to report graduating seniors' future plans. Please choose one answer for each question and bubble it in with a number 2 pencil. If a question does not apply to you, please leave it blank. Thank you.

Address Correction

Additional Address

What are you most likely to do after you graduate from high school? (Please pick only one.)

- Get a full-time job
- Go into the military
- Attend a public community or technical college
- Attend a private two-year junior college
- Attend a public four-year college or university
- Attend a private four-year college or university
- Attend a trade or business school
- Other plans or don't know

IF YOU PLAN TO GO TO COLLEGE: Will it be

- In North Carolina
- Outside of North Carolina

How much do you think you will work while you are going to school?

- I will not work at all
- Work only in the summer or during semester breaks
- Work part-time on weekends or in the evening
- Work full-time on weekends or in the evening

Do you think you will go to school

- Full-time
- Part-time

For each of the following activities, please mark whether or not you participated, and, if you did participate, please indicate how much your participation impacted your decisions about your future.

	Participated?		Impact?		
	Yes	No	A Lot	Some	None
Groundhog Shadow Day	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
